New York. April 6.—The counsel for Thaw differed today over the question whether to call more witnesses for the defense upon the resumption of the trial Monday. Some of the Thaw lawyers favor calling no more witnesses and urge that the summing up be begun at once, while others of his counsel declare that more witnesses ought to testify.

Dr. Hamilton was on the stand and his examination was not completed when the trial was interrupted. The question before the counsel is whether his examination shall be continued, as it is believed he would testify that Thaw was insane at the time of the shooting. What his ophilon is of Thaw at the present time is not important, in view of the decision of the commission.
